The cat cannon is the best weapon you have in the game. It's what turns the tide of battle over

and over again, so make sure you're using it properly. Of course, like all powerful weapons, you need time to attack. You should upgrade your cat cannon regularly to reduce loading times, improve the damage it deals, and increase its range. Put your cats to study The study of the cat allows more XP points to be earned at the end of each level, which goes a long way to helping you achieve your goals in battle and beyond. It's where you exit the app and enter your phone's settings to change the time for the future. This allows you to gain a lot of energy, which you can use to invade more parts of the world. The point is that most developers consider this cheating when they make their games, and they are no more than punishing players for doing so.
